FURTHER INFORMATION ONLINE.

Further Information as well as the BMW Individual Manufaktur Visualizer can be found online www.visualizer.bmw-individual.com

The prices listed apply for the model range offered in Germany.
The indicated prices are recommended retail prices by the BMW M GmbH ex-factory.
Errors and modifications in the information are reserved.

Product features, specifications, models and prices are subject to change without notice.
The current version of the BMW Individual Manufaktur Pricelist is available in the German version of the BMW Individual Manufaktur Visualizer.

Version 2 (July 1st, 2020)

IMPORTANT INFORMATION AND GUIDELINES.

GENERAL INFORMATION

In addition to the BMW Individual Collection (official sales literature) BMW Individual offers further exclusive paintworks.

Please be aware that new paint finishes require approx. 3-5 weeks to clarify the technical feasibility.

Individualizations are not possible for the following series:

- 1, 2, 3 GT, X1, X2, X3, X4, Z4

In general the following contents cannot be realised:

- Changes to safety-relevant components (airbags, etc.)
- Changes to brand-typical characteristics (BMW logo etc.)
- Changes to components with legal requirements (OPF etc.)
- Changes to the overall vehicle tuning (chassis, body, etc.)
- Swap of a rim styling of any kind
- Steering wheel modification because of the hands-off detection
- BMW Individual Manufaktur contents as aftersales solution

The WLTP data for the individual configuration based on the order number will be sent to you after the order is confirmed.

ORDERING PROCESS

To order a BMW Individual Manufaktur content, an order number with a booked quote is required. The order processing takes place in status 102.

Existing customer orders can only be equipped with BMW Individual Manufaktur contents until status 112.

As soon as all participants involved in the process have confirmed the contents, the vehicle is booked by BMW Individual on status 111.

Option changes to BMW Individual Manufaktur orders can only be executed by the BMW Individual team and generate a significant effort for all participants involved in the process. Therefore we ask you to only submit final configurations for checking and ordering special requests.

BMW INDIVIDUAL VISUALIZER

www.visualizer.bmw-individual.com

The BMW Individual Visualizer contains a large selection of possible special paints.

For new models special paintworks can be requested as soon as the new series is available, even if they are not yet displayed in the BMW Individual Visualizer. Production takes place with the start of the SABI-Individual Production.

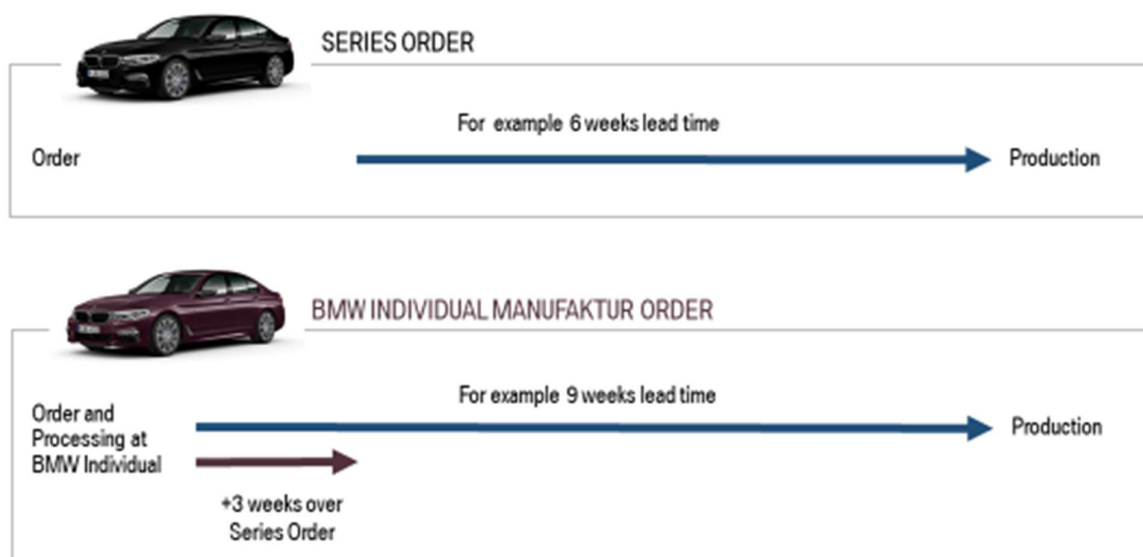

Please keep in mind that not all of the features mentioned in this document can be displayed in the BMW Individual Visualizer.

BMW INDIVIDUAL TRAINING

Take your time to review the BMW Individual Training documents. You can find them online as a web-based training. Many questions about feasibility, the ordering process and the BMW Individual Manufaktur contents are answered. In short videos we explain how our vehicles are refined and introduce you to the people behind the products.

LEAD TIMES

The lead time starts with placing your order with BMW Individual. In order to make all the preparations for the production of a special request vehicle, this lead time is necessary. It has no influence on the production time in the factory.

The general lead time for BMW Individual Manufaktur products is at least 6 weeks. Special paint should be planned with approx. 8-10 weeks.

For special upholstery you have to calculate with significantly longer lead times (min. 14 weeks). This lead time is necessary to develop the construction deviations for the plants and suppliers, to provide the process partner with the required material and to produce the upholstery according to the customer's request.

Exception with special equipment 944:

The production of the contents takes place in the BMW Individual Manufaktur after the F2-date in the factory. The delivery week indicated in the system is extended by approx. 3-4 weeks. Please consider this in the customer consultation.

BMW Individual Manufaktur Paintwork

Paintwork exchange within the BMW offer

Series colours and BMW Individual collection colours included in the official BMW paintwork range can be swapped within and between series.
Only possible for paintworks from German production plants.

New BMW M-specific paintworks and special model paintworks cannot be swapped for other vehicles up to one year after the model launch.

An overview of the paintworks available for the series can be found in the BMW Individual Manufaktur Visualizer.

With the removal of a paintwork from the official BMW offer, the paintwork can be offered as a BMW Individual Manufaktur special paintwork (different pricing) afterwards.

BMW Individual Manufaktur Paintwork

Paintwork exchange within the BMW offer

Series colours and BMW Individual collection colours included in the official BMW paintwork range can be swapped within and between series.
Only possible for paintworks from German production plants.

New BMW M-specific paintworks and special model paintworks cannot be swapped for other vehicles up to one year after the model launch.

An overview of the paintworks available for the series can be found in the BMW Individual Manufaktur Visualizer.

With the removal of a paintwork from the official BMW offer, the paintwork can afterwards exclusively be offered as a BMW Individual Manufaktur special paintwork (different pricing).
